

Series P2-ST & P3-ST

Series P-2ST and P3-ST couplings are designed for use with medical equipment. They can also be used in a variety of low pressure fluid transfer applications.

Features

- Interchange with 2-ST and 3-ST
- Excellent chemical resistance
- Light weight
- Low cost

Standard Materials

- Polypropylene construction
- Buna-N (Nitrile) seals

Rated Pressure

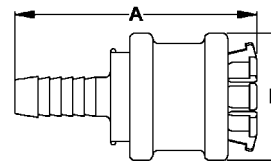

Temperature*	PSI	BAR
75°	110	8
200°	30	2

*235°F maximum sterilization temperature

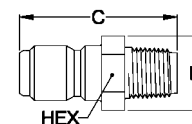

SOCKETS

Series	Part Number	Hose I.D.	Dimensions	
			A	B
P2-ST	P2-ST5-25H	1/4"	2.07	1.12
Each P2-ST socket uses one Part No. 902-7 o-ring.				
P3-ST	P3-ST5-37H	3/8"	2.61	1.37
Each P3-ST socket uses one Part No. 902-10-199 o-ring.
